

Happy Doodles With Love Families

After our black lab passed away, my husband became interested in labradoodles. If you'd told me I would drive nine hours to bring one home, I would have thought you were crazy, but that's exactly what we did. We found the website online and my daughter began talking to Beth. She was patient with all of our questions and talked to us frequently. She sent photos and matched us with the perfect dog. It was obvious he was raised in a loving home. He is now almost a year old and we have no regrets. He does need a lot of exercise and we walk him daily. He loves to play fetch, run in the yard and just be with his 'people'. He is pretty calm (especially for his age and size) and he gets along well with my daughter's small dog. He doesn't shed, which is a plus, but he is a chewer so we provide lots of bones and chew toys. He is so good natured and shows no aggression to people or other animals. He is still learning and can be a giant goofball, but we love his personality and would definitely recommend this breeder.

"We received "Otis" in 2014, one of Mo'Jo's litters. We had a very positive experience, the puppies were being raised in a loving home environment. Beth was very open and helpful, answering any questions we had about selecting a puppy. We could not be more happy with how Otis is turning out. He received an A+ in obedience classes and loves the trips to the dog park, I think he has to say hi to every dog there. We definitely made the right decision getting a puppy from Beth."

- Marc Palmer, with "Otis"

I wanted to tell you how much we love our Hazel. Even though she's just a puppy still, her love and devotion for our family is always so apparent. Three weeks ago, our 15 year old was seriously injured in a snowboarding accident. He's been on bedrest since and just underwent surgery yesterday. Both of our doodles have been by his side while he's been recovering, and it's been the sweetest thing. Cody has always kept the dogs on his right side so that they didn't get too close to the unstable break in his shoulder. This morning, on day one of his recovery, Hazel came flying into the bedroom and jumped up on the bed. Before I could stop her from getting too close to Cody's injury, she plopped down next to him and rested her chin on the pillow, with her nose right by Cody's incisions. She fell asleep and stayed just like that for over an hour. She's the sweetest, most loyal dog and we are so honored to have her in our family. She's been an extra blessing to Cody through these difficult weeks. Thank you for raising such a beautiful creature, we love her so much!

-Nicole Kofoed, with "Hazel"

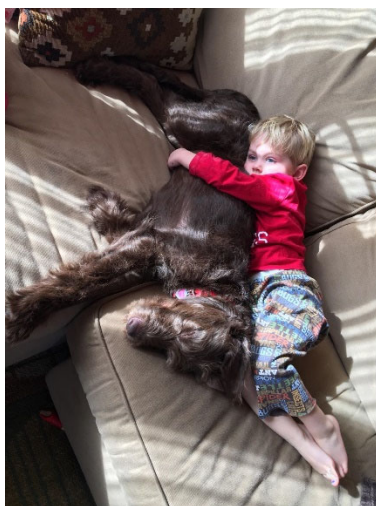

We are so in love with our Dugan! He is a great family dog, and loves to play with my boys. We could tell that he was raised in a loving home with lots of attention, as he acclimated so well to our active home. We have to say that selecting and buying a puppy can be very nerve-wracking, but you made it so easy – from helping us choose the right puppy for our home, to sending us weekly updates, to preparing us for coming home day, and even after we had him home – you were so helpful and informative every step of the way. Thank you for bringing us so much joy in Dugan!

- Marcie Brasier, with "Dugan"

Hi Beth! Just wanted to let you know we've been enjoying Jasper so much!!! He is such a sweet and good boy. I have family here with me, and they keep calling him "the perfect puppy!" He is really doing great with potty-training, eating, and playing. He is getting lots of love! He is fitting in like a glove with our family. He really is such a great puppy – so mellow and sweet! He is such an awesome dog! Thank you so much!

- Carrie Brocker, with "Jasper"

I wanted to update you on our wonderful dog, which we named Seamus. He is such a great dog, and fits in so well with our family and our lifestyle! We have an older black lab, and wanted to get a replacement dog to ease with the eventual transition. Seamus gets along beautifully with our old lab, and has actually brought him back to life! He is gentle, smart, and loving, and enjoys going hiking with our family. He is very obedient, and loves to be loved on by all of us. Thank you for raising him in such a great environment, where he was loved and cared for by you and your children. We will definitely recommend you as a breeder of choice to everyone who falls in love with Seamus!

Connie Wall, with "Seamus"

Pepper is thriving. She takes such good care of all of us, especially our now almost three-year-old son, Atticus. She's always so affectionate whether it's celebrating a great moment with us or consoling us when things aren't going our way. Atticus, Pepper, and I play a lot of hide and seek right now, which she loves and is way too good at, but nothing gets her prancing and excited like going for a good long walk or hike. Her ability to win over every heart always amazes me too. She makes friends with every dog and person at the dog park and my siblings, who never grew up around dogs and were rather skeptical of her when she was an energetic puppy, are now completely in love with her too.

Jasmine is quite the character. She is a very sweet, smart and soft curled chocolate doodle. She is just under a year old is still developing a very lively adorable personality. While taking her walks, she loves to chase blowing leaves, flying birds and butterflies. She is quite protective of me, her dad and her older sister Ginny, a Tibetan Terrier. Ginny and Jasmine love each other so much. They make excellent companions. Ginny is an Alpha and Jasmine is submissive, but when it comes to food the tables are turned. When they each get a bully stick, Jasmine makes sure to gain control and to guard both with passion. She loves to eat and she will dance for treats. We need to take her to agility training because she's got some unbelievable moves. She doesn't like to separate from her family and will speak with all sorts of woofs, howls and growly noises to let you know how she feels. We love her to pieces and she is such a joy to be with everyday. I would highly recommend on of Athenas' beauties!

-Maria Talcott with "Jasmine"

Lyric is my baby! She is the sweetest, most loving companion I could ever hope for! I couldn't be happier than I am, and cannot imagine my life without her. She integrated so well with my other dog and my young sons. She is sweet, sensitive and super smart! I love how these dogs entertain themselves, and also, she inherited this hilarious trait of "smiling" the biggest toothy grin when she greets me when I come home. I am more than pleased with my experience with Athena's puppies, and Mojie-Doodles. I know that I have a quality dog that will be the heart of my family for a very long time.
